

## **Dumper Truck (In House)**

### **Who should attend?**

This course is suitable for anyone who is required to use a Dumper Truck in their daily working duties.

### **Course Aims & Objectives**

The purpose of this course is to give delegates the skills required to safely operate a Dumper Truck. It covers the Law, maintenance of the truck and manual checks to ensure safety.

By the end of the course delegates will:

- Have a thorough understanding of how to successfully control and manoeuvre the vehicle
- Be able to inspect the vehicle to ensure safe use
- Understand all of the regulations required to ensure safety in the workplace

### **Course Outline**

- Health & Safety at Work Act 1974
- Management of Health & Safety at Work Regulations 1999
- Provision and Use of Work Equipment Regulations 1998 (PUWER)
- Features and Safety Equipment
- Vehicle Inspection and Maintenance
- Correct Use of Controls
- Operating the Dumper (starting, moving, loading and unloading)
- Pre-Use Inspection Checks
- Theory and Practical Testing

### **Certification**

On completion of the course and successfully passing the theory and practical test, the delegates are awarded a certificate which complies with the recommendations of the Health and Safety commission approved code of practice. It is recommended that this course is refreshed every 3 years.

### **Duration**

1 Day – Refresher or Conversion  
2-3 Days – Experienced delegate with no current certificate

### **Location**

We can offer courses on company premises for a maximum of 3 delegates per day.
