

Plant Machinery Marshal (NPORS)

Who should attend?

This course is suitable for anyone who is involved in control reversing operations of a Plant Machinery vehicle. This would include the designated Banksman and the driver of the vehicle.

Course Aims & Objectives

The purpose of this course is to provide information on the safe and correct use of lifting equipment and accessories and best practice to promote a safer environment for everyone involved.

By the end of the course delegates will:

- Have a thorough understanding of the regulations required to ensure safety in the workplace
- Be able to inspect the equipment used to sling loads
- Understand the correct hand or arm signals used to manoeuvre the load safely

Course Outline

- Have a basic understanding of the industry and the relevant legislation, the dangers of working in the industry and their responsibilities as a vehicle / plant machinery marshal
- Have knowledge of the manufacturer's handbook for the vehicle / machine to be guided
- Have a good understanding of signs and signals, approved hand signals and different forms of communication
- Identify and maintain PPE appropriate for vehicle / plant machinery marshal
- Conduct all necessary safety checks at the work area including stop blocks and tipping areas
- Set up exclusion zone for loading / unloading
- Guide machinery in a forward and reverse direction including confined spaces and "blind areas" safely and efficiently
- Environmental considerations
- Carry out all end of shift and shut down and parking procedures

Certification

On completion of the course and successfully passing the theory and practical test, the delegates are awarded an NPORS certificate which complies with the recommendations of the Health and Safety commission approved code of practice. This certificate will last for 5 years.

Duration

1 Day

Location

We can offer courses on company premises for a maximum of 3 delegates.
